As the world faces more and more challenges with ageing infrastructure, it is imperative for advocates of corrosion mitigation to unite and address the problem. Each year **over 650** industry leaders from around the world come together at CORCON, in an effort to tackle corrosion issues, and inform participants of the latest solutions and methods.

This year NACE International, the NACE Gateway India Section, and the NACE East Asia and Pacific Area, have joined forces to strengthen this premier event. This partnership will bring awareness to tough corrosion challenges industries throughout India, Asia, and the world are fighting every day.

Advance your understanding of corrosion mitigation as you hear from the industry’s brightest professionals, who attend each year to discuss the following topics:

- Cathodic and anodic protection
- Coatings and linings
- Corrosion in petrochemical industries
- Corrosion in refineries
- Corrosion in chemical and fertilizer industries
- Corrosion in RCC structures
- Corrosion monitoring and testing
- Internal corrosion in pipelines
- Materials and composites
- Microbial corrosion and inhibitors
- Power plants and utilities
- Student symposium

**Interested in Presenting?**
Submit an abstract on any of the above topics by 30 April at corcon.org
Addressing the IMPACT of Corrosion

According to the NACE International IMPACT study the global cost of corrosion is estimated to be **US$2.5 trillion, or 3.4%** of the global Gross Domestic Product (GDP). Additionally the study discovers that by using available corrosion control practices, it is estimated that savings of between 15 to 35% of the cost of corrosion could be realized; i.e., between **US$375 and $875 billion** annually on a global basis.

CORCON will discuss the IMPACT study’s findings and feature presentations from international leaders to help attendees understand cost savings through utilizing corrosion control practices.

This event will also feature Technical Interactive Forums (TIF) on the following topics:

- Corrosion in concrete structures
- Corrosion in monitoring and testing
- Delivering performance through optimum coating specifications
- Pipeline integrity and cathodic protection
- Water treatment
- Regulations and standards in corrosion

Additionally, CORCON 2017 will feature the NACE East Asia and Pacific Area Conference as part of the technical program.

CORCON attracts over 650 industry leaders and decision makers in corrosion mitigation from around the world. These attendees travel each year to discover the latest resources for their corrosion issues and challenges, and to familiarize themselves with the newest advancements in corrosion mitigation products and services.

We have put together exhibit and support opportunities that will give you a constant presence in front of these decision makers and will help increase your brand awareness.

in Mumbai at the Sahara Star Mumbai

CORCON 2017 will be hosted at the Sahara Star Mumbai. Formerly called Bombay, Mumbai is a densely populated city on India’s west coast. A financial center, it’s India’s largest city. On the Mumbai bustling waterfront stands the iconic Gateway of India stone arch, built by the British in 1924. Offshore, nearby Elephanta Island holds ancient cave temples dedicated to the Hindu god Shiva. The city is also famous as the heart of the Bollywood film industry.

**CORROSION AWARENESS AWARDS**

During CORCON 2017, NACE Gateway India Section will present Corrosion Awareness Awards to honor individuals and organizations for their contribution to corrosion awareness and developments in the field of corrosion science and technology in India. Applications must be submitted by **17 July 2017**.
